## COMING UP extra

# Tony has a Bad Attitude to mud

### ADVENTURE

BY ROD WHINNETT-SMITH

There's a huge gaping hole in the perspex front window of Tony Streets' evil-looking mud-racing rig for a very good reason.

"Windscreen wipers can't keep up with the amount of mud that gets thrown up so you don't have them or a windscreen," Streets explained.

Which is why when he emerges from the radically-modified 1987 Holden Rodeo four-wheel after a mud run, Streets' face inside his open-face helmet is covered in mud. "You just wipe the mud off you face and keep on driving," he said.

Ten years ago the Launceston-based Streets — who operates Tasmanian 4WD Wrecking at Rocherlea — began mud racing in a conventional four-wheel drive. "It was bit more exciting than off-road driving. I'd been into bushbashing for quite a few years," he said.

Now a member of the Devonport 4WD Club, Streets is one of about 35 mud-racing members, most of whom still compete in conventional four-wheel drives.

But Streets and 12 other club members have invested their money in modified mud

machines that can't be driven on the open road. Streets drives a class five machine — the pinnacle of mud racing.

With its skinny adapted tractor tires and rims, powerful Hemi motor and the toughest diffs and gearbox possible Bad Attitude is one weird-looking machine.

It's a vehicle which has helped him to place second in the State and fifth nationally after competing in five races in Victoria.

"Mud racing is a lot of noise, blown-up motors and competition, like any motorsport," he said.

Mud-racing involves completing a virtual obstacle course of deep mud holes, humps

and bumps in the fastest time possible. Only one vehicle is allowed on the track at a time. Streets' next race is a Smithton Football Club-organised event on May 28 at Smithton.

It's a great spectator sport according to Streets because the entire course is visible all the time.

The numbers certainly back it up — a
